Mark completed:
- Led development of subfunctions.py and analysis_combined_terrain.py

Wyatt completed:
- Most question files and group communication.
- Led development of graphs_motor.py and graphs_sr.py

Esteban completed:
- Led development of analysis_terrain_slope.py and analysis_rolling_resistance.py

That being said, no project was entirely completed by one individual, but rather in a collaborative environment through GitHub.

We did not consult any other teams on this project.
